

EVALUATION : Sociétés et environnement : des équilibres fragiles

Chapter 1 : Human societies facing risks

Objectif :

- Développer la curiosité à travers l'actualité
- Travailler sur les sources (recherches, internet, fiabilité, sélection)
- Travailler l'illustration à travers le choix de l'image
- Mobiliser le vocabulaire de la 1ère partie du chapitre sur « les sociétés face aux risques »
- Etablir des liens de causes à effets

❖ **Mise en œuvre : (2 heures)**

- Travail en groupe
- Travail de recherche
- Réalisation d'un diaporama
- Présentation à l'oral

❖ **Description :**

You are a television journalist and for 8 p.m. you must submit a report of a few minutes on a natural disaster that has occurred in Australia, New Caledonia, or in the Pacific region.

To do this, you must choose a news item (cyclone, earthquake, tsunami, pandemic, etc.) (*for this work, the current event must have taken place within the last ten years max*) based on reliable sources, and specify them in your work; then you have to go back to the main ideas that make this a natural disaster.

➤ **1st step :**

As your editor-in-chief, I'm giving you some ideas to keep our viewers on their toes 😊

1) Where did it happen? (location, include a national and local scale map)

2) CIA Fact Box – *country* Need To Know

<https://www.cia.gov/the-world-factbook/>

Indicator	Values (<i>year estimated</i>)
Population	
Urban population	
GDP per capita PPP	
People Living in Poverty (less than \$2 per day)	
Access to Clean Water	
Life Expectancy	
Literacy Rate	
People Per Doctor	

3) When did it happen ?

4) What happened ?

5) Who was affected by it happening? Effects on environment and people.

Social Impacts	Economic Impacts
Environmental Impacts	Political Impacts

6) Use illustrations, photos, testimonies and show the vulnerability. Is it the same for everybody? Justify.

7) Planning, preparation, prediction, evacuation, warnings.

8) Help with recovery, aid – local, regional and international, role of NGOs. The 3 R's : Rescue (short-term), Rehabilitation (Mid-Term), Reconstruction (Long-term)

Votre travail de recherche au brouillon doit tenir sur une page A4 et doit être sous forme de texte = réponses aux questions ci-dessus. Non obligatoire

➤ **2nd step :**

You must submit your report to the editorial team and the chief editor in a creative presentation (slideshow, prezi, genially, etc.) and orally. Consider illustrating your presentation, and precise the sources used at the end of your work.
